

FUND OVERVIEW

RISE Properties Trust is a non-traded Canadian REIT focused on the US multifamily sector. Through management's existing business platform and fully integrated operations, the Trust aims to acquire underperforming rental apartment properties and improve their operations, cash flow, and value.

FUND OBJECTIVE

The Trust's investment objectives are to:

- Acquire underperforming properties that offer opportunities to add value through repositioning and, where appropriate, through condominium conversions.
- Generate stable cash flow through active management, increasing occupancy and growing market rents.
- Focus on balance sheet management to ensure that the Trust maintains a prudent capital structure and conservative financial profile.

ABOUT THE MANAGEMENT TEAM

Over the past 25 years, the management team has acquired over \$4 billion USD of apartments and managed more than 15,000 units in the Greater Seattle Area and along the west coast of the United States. Collectively, the management team has over 100 years of experience in rental apartment transactions, property management, condominium conversions, portfolio assemblies, and real estate investment trust management.

GROWTH OF \$10,000 INVESTED IN CLASS F (CAD) UNITS

Since inception³, \$10,000 invested in Class F (CAD) units have current market value of \$24,089 (+141%). Assumes all distributions are reinvested.

CLASS F RETURNS

² Class F returns net of fees, assumes all distributions reinvested in DRIP program

³ Formed Jan 24, 2012. First units sold were Class F units on ("Inception Date") March 15, 2012. Inception Date of Class A units was September 1, 2016. Inception Date of USD Class F & USD Class A units was April 1, 2017.

⁴ Management Ratios involve non-GAAP (general accepted accounting principles) financial measures such as Adjusted Funds From Operations and Net Asset Value. These financial measures do not have any standardized meaning according prescribed by International Financial Reporting Standards (IFRS) and therefore may not be comparable to similar measures presented by other companies. See RisePropertiesTrust.com/investor for further information on the calculation of management ratios.

MARKET FUNDAMENTALS

WHY APARTMENTS?

According to the National Council of Real Estate Investment Fiduciaries (NCREIF) apartments delivered the highest returns and lowest volatility from 1992-2011 as compared to other real estate classes. The management team believes that apartments are poised for continued strong returns in the coming decade due to the factors outlined below.

Homeownership rates in the US have declined from a peak of approximately 69% in 2004 / 2005 toward their long term historical average of just over 64.2% (US Census Bureau Q4 2017). Every 1% decline in the homeownership rate creates the potential for an additional 1.1 million rental households in the United States.

Millennials (ages 18-34), a generation 80+ million strong and equal in size to the Baby Boom, are entering their prime rental years creating favorable demographic conditions for rental apartments.

WHY SEATTLE?

Seattle has an impressive employment base and strong employment outlook. Fortune 500 employers such as Amazon, Microsoft, Boeing, and Costco along with a thriving technology sector are powering employment growth. According to Conway Pedersen Economics, over a 37-year period, 1980 to 2017, Seattle's job growth averaged 2.1% per year versus a US average of 1.3%. This 60% increase in jobs versus the US and has resulted in 529,000 more jobs today than if Seattle had been "average".

This strong job growth leads to strong net in-migration, which, when coupled with Seattle's geographic barriers to growth leads to strong real estate appreciation.

PORTFOLIO SUMMARY (IN USD)

Property Name	Location	Units	Purchase Price	Acquisition & Capital Costs	Value as of June 30, 2018	Added Value

Disclaimer: These materials are not to be distributed, reproduced or communicated to a third party without the express written consent of RISE Properties Trust. These materials should be read in conjunction with the offering memorandum dated July 13, 2018, including the risk factors identified therein. This report has been provided for general information purposes only and is not intended to be a solicitation to purchase units of the rise properties trust or advice regarding the suitability of the investment for specific investors. Any opinions expressed herein are effective as at the date of the report. Management does not undertake to notify the reader of any subsequent change of circumstance or opinion. Historic returns set out above are net of all fund expenses and management fees (both fixed and carried interest). We have determined increases in the value of real estate holdings using the income approach or direct comparison approach described in our significant accounting policies located in our financial statements. As we have relied on estimates to determine the value of the properties, the rates of return shown may vary if different estimation methods are applied. Calculated returns are based on the assumption that all dividends received by unit holders are re-invested in further units of the trust and, that dividends and other distributions are earned in a tax-free account. Returns will be lower to the extent either of these assumptions are untrue. Past results are not indicative of future performance. For further information and disclosures please refer to the investor section on our website.
